

Social Media Audit Report

CampusConnect

Week 4

Intern Id-26101367

Platform Overview

<u>Platform</u>	Handle	Followers	Avg Likes	Avg Comments	Engagement	Posting Frequency	Content Format
Instagram	@CampusConnect	5200	250	18	5.1%	Daily	Reels,Stories,Carousel
LinkedIn	CampusConnect	2300	75	12	3.8%	3 post/Week	Articles,Images

Content Gap Analysis

Instagram

CampusConnect mainly shares internship updates and announcements. It can improve engagement by posting student success stories, behind-the-scenes content, and interactive quizzes. Competitors regularly use these formats to increase audience interaction and build stronger relationships with students.

LinkedIn

CampusConnect shares professional updates but lacks detailed career advice, alumni success stories, and industry insights. Adding these content types can attract more students and professionals while improving engagement and credibility.

Platform Strategy Decision

CampusConnect will primarily focus on Instagram and LinkedIn. Instagram is ideal for students because it supports engaging formats such as Reels, Stories, and Carousels, helping increase reach and interaction. LinkedIn targets students, recruiters, and professionals, making it suitable for career guidance, internship opportunities, and networking. By combining creative visual content on Instagram with professional content on LinkedIn, CampusConnect can strengthen its online presence, increase student engagement, and build trust among recruiters. This strategy allows the brand to reach different audiences while maintaining consistent communication and supporting long-term growth.

Content Pillars

<u>Pillar</u>	<u>Description</u>	<u>Ex.Post Idea 1</u>	<u>Ex Post Idea 2</u>
